**Director’s Report:**

Ms. Kuzma reported that she attended, virtually, the Human Relations Council event on April 29 to share all of the services that the library is offering at this time. Immediately upon closure, the library programming became virtual. There are storytimes, craft programs, technology training, a weekly Lunch and Learn with Doctors program and more. 90 YouTube videos have been uploaded, which have had 2,800 views. The library has issued 185 new library cards, and has answered 224 reference questions. Digital resource usage is up, and Universal Class had 3,000 uses in April.

The circulation department is working on a curbside pick up procedure, to be implemented as soon as staff returns to the building. 25,810 items are currently on loan, and procedures are being developed to quarantine and shelve these items when they are returned. A virtual time capsule project has been started, to commemorate this unique time in our history. A survey has been distributed to library patrons, to ascertain what they would like to see when the library reopens. 637 responses have been received so far, with virtual programming, children’s programming and job search assistance high on the wish list. Afternoons are the time when most people want the library to open.

A discussion was held on how to disinfect the materials being returned. Ms. Kuzma has read different recommendations on how long items should be quarantined, ranging from 24 hours to 9 days. She is waiting for further guidance on this from the state library and ALA.

Ms. Tibbetts said that she will work with Aaron Pickett to see what kind of summer programming will be offered.

New Business:

A. 2020 Budget Cuts

Ms. Cornavaca reported that the Mayor notified her that $600,000 will be cut from the previously proposed 2020 budget. Ms. Kuzma reviewed the budget and identified a savings of $150,000 to $175,000. She suggested using reserves to make up the difference. This, however, will impact the 2021 budget as well. Ms. Albanese spoke, at the request of Mayor Cohen, and said that the town council will hold a special meeting on May 21 to re-examine the budget. The township has lost significant revenue due to the covid crisis, and the state budget is delayed as well. Ms. Albanese is working with Ms. Kuzma and the library auditor to see if the library fund balance can be increased.

B. Renovation Update

Ms. Kuzma reported that, at the May 18 town council meeting, the council voted to issue a bond for the library renovation project. It was supported unanimously, and Ms. Cornavaca thanked them for their support. Ms. Kuzma is prepared to submit the construction bond application, which is due by June 5.

C. Re-opening Plan
Ms. Cornavaca said that she has reviewed this plan with Ms. Kuzma, but that the plan is by no means final, as she is still waiting for guidelines from the CDC and the state. The proposed plan is to re-open with a 3-phase plan. Some services will be resumed prior to the full opening of the library.

Phase 1 will have maintenance staff thoroughly clean the building. Phase 2 will see limited staff return, on a rotating basis, with the book drops opened, and curbside pickup of materials for patrons. Phase 3 will allow the public to return to the building, with limited library hours as well as the number of people in the building.

Ms. Kuzma is working with the Fire Marshall and the building department to determine the building occupancy rate, as this is unknown at this time. This number will determine the number of people allowed in the building, as it is presumed that the Governor will limit the occupancy to a certain percentage. Ms. Kuzma and Ms. Filippone have developed this plan after meetings with Library Link and other library directors. Cleaning supplies are being ordered in preparation of opening, and each staff member will receive one reusable mask. Ms. Kuzma is keeping track of all supplies ordered and submitted a total to Ms. Albanese, in the hope that some of this can be reimbursed with money from the CARES Act.

A discussion was held about security in the building and the disinfection of the returned items. Ms. Kuzma shared that an electrostatic sprayer was purchased that will be used for general building disinfecting. The current plan shows that the public bathrooms may be closed, and this was questioned, as people are encouraged to wash their hands. Ms. Cornavaca stated that this plan will most probably be amended before it will be implemented, and as it will be a fluid document, it will not be formally adopted by the Board. Ms. Kuzma stated that several library policies will need revision and Board approval, such as the Code of Conduct and the Circulation Policy.

**Information Items:**

Mayor Cohen shared that he has seen a huge outpouring of support from the community and a great display of humanity.

Ms. Pan praised the staff for all of the new and innovative ways they are reaching out to the library patrons.

Dr. Freedman made a motion to adjourn at 8:10 pm. Mayor Cohen seconded.
